BY THE OFFICE BOY

Well sir, things are happening around Mokena these days. For instance Wednesday nite I saw a couple of Boy Scouts set up a tent in back of a house . . . and it was cold, too! First thing they did after putting up the tent was to build a big roaring fire—then I thought there was something doing for sure.

Anyway, I went out on Front street, and I started to see Firemen milling around. There was John Scarth, Harold Spiess and Harold Cooper, to mention a few, chasing around like chickens with their heads cut off. I set out to catch the nearest one and I finally cornered John Scarth, after I was almost winded. I had to do it too, because the boss said if I didn't get a story for this space it would have to be run blank with my name in the center of the space.

Well, anyway as I said, when I caught up to John I says, Mr. Scarth, where is the fire. He looked at me as if I was pretty dumb and said, "Fire? What are you talking about, sonny?" Well sir, I said, There must be a fire one way you and the others are chasing around, especially Harold Cooper, because he only moves fast when something is burning, and besides I saw a big bonfire out in front of the tent the Boy Scouts have. Boy, I was pretty near out of breath when I finished that little speech.

Well what I found out was the cause of the whole commotion was all on account of the Firemen, officially the Mokena Community Volunteer Fire department.

Maybe this part of the story should have been on top because it is the most important part of the story, but the Mokena firemen are giving their fourth annual dance and pinchee tournament this Saturday night, May 14. The firemen were just chasing around doing their last minute jobs for this affair and they are giving it in St. Mary's hall this year because of the better "facilities," according to John.

Well, anyway I'll be there and so will most folks around this territory who want to have fun and at the same time help this community organization by buying tickets and using them to make this one of the biggest events ever put on in Mokena.

C. U. Later.
P. S.: All you folks around Frankfort, Orland and Tinsley Park are welcome too, you know. The firemen will sell you tickets at the door.

New System Speeds Long Distance Calls

Long-distance telephone calling was speeded up for Joliet and several other nearby communities Monday when Joliet operators began dialing directly to telephones in the Aurora area, R. F. McQueen, Illinois Bell Telephone Company manager, announced. Direct dialing by Aurora operators to Joliet telephones already is in effect.

Calls to the Aurora area from Braidwood, Channahon, Elwood, Frankfort, Minooka, Mokena, New Lenox, Plainfield, Plattville and Wilmington also are being handled the new way. Long-distance operators for these communities are located in Joliet.

Telephones in the Aurora area which can be dialed directly include those in Plano, Sugar Grove and Yorkville. Big Rock, Elburn, Kaneville, Oswego, Service, Lockport, Manhattan and Naperville telephones also is speeded up although in these cases the calls are not dialed directly all the way.

"The new, faster service to the Aurora area is an extension of the Bell System's nation-wide long-distance dialing network, which Joliet was among the first to join earlier this year," McQueen said.

Telephone users will place the calls exactly as before by giving the desired town and telephone number to the Joliet long-distance operator. McQueen said. The operator, however, rings the telephone directly from a "dial" on her switchboard. Formerly she gave the number verbally to the operator.

McQueen pointed out that calls will go through faster if subscribers give the called number to the operator.

This long-distance service improvement was made possible by the addition of special equipment, plus Joliet-Aurora direct dialing paths.

BUYS REGISTERED ANIMAL

William Brinker, Mokena, has recently purchased the registered Brown Swiss bull Silver's Brownie of O.C. 87129 from Owen Strom, R.R. No. 2, Joliet.

Mystery surrounding the destroying of school property in several public schools near Frankfort was solved when two Frankfort youths admitted to the crime, Sunday, May 8.

The youths are Roy W. McKinney, 17, son of Mr. and Mrs. Charles McKinney, Sack Trail, a former Navy man, Frankfort, and James I. Furrer, 17, near Harlem avenue, Frankfort, Route 1.

At the time the Rahm district school was entered and wrecked, Special Deputy Gene Flint assisted Deputy William Agnich of Joliet in the investigating of the affair. Deputy Flint had copies of the foot prints in his possession taken from papers scattered at the Rahm school, and gave these to Village Patrolman Fred Breymer of Frankfort. A short time later Flint and Breymer reported to Deputy Agnich that they had suspects arising from the foot prints, and that they had questioned them and they had denied the fact.

Officer Agnich advised Flint to get out a warrant and bring them to Joliet to Officer Roy Doefler for questioning. This was done Sunday morning May 8 at 10:30. At first the boys denied knowing anything about the affair, but later Flint admitted that he and McKinney had broken into the Rahm school and did destructive acts there, and that at an earlier date they had entered the Lincoln Estates school and wrecked the inside of that building, and still at an earlier date had driven through Frankfort and Mokena breaking many store windows by throwing marbles through them. They also stated that recently they had broken into an unidentified school in Cook county, thought to have been near Homewood on Central avenue, where much damage was done.

The officers took Furrer to his home where they dug up a Philco table model radio, two 200 watt G. E. light bulbs, a yellow pencil box, paper punch, Swanson toy flute, seven fountain pens, 13 mechanical pencils, an open end wrench and a finger nail clipper. A clock was in the possession of McKinney.

Windows broken in Frankfort were large plate glass at the Balchowsky store; B. & M. Lumber company, large plate glass and several smaller windows; windows in the A. C. Bauch garage, Frankfort; Locker and Ray Warning garage. In Mokena a large plate glass window in the Swanberg Farm and Auto Service and in the Milton Geuther building.

The boys are being held in the Will County jail by a warrant, awaiting action by the State's Attorney of Will county.

SHORT STORY

Dancing Shoes

By CHARLES DORIAN

WHILE a vast throng of theatre-goers passed through the exits of the Orpheum, the beautiful blonde attraction left quietly by the stage door on the arm of her most ardent admirer, the owner of the theatre and string of others.

At the curb stood Max Berber's limousine, and just ahead of it, a taxi. Four maudlin "collegians" having a sing-song, obstructed the entrance to Berber's car, but made way while the lady stepped in. Then suddenly three of them gave Berber the bum's rush, while the fourth clambered in beside Paula Pauleen, tap dancer extraordinary.

Max spluttered and fumed while the three kidded him. A letter was pressed into his clenching fist and his car keys were frisked from him. The taxi jumped forward, and in a moment was followed by the limousine carrying the dancer and four members of the notorious Scarlet Gang in evening clothes and top hats, still simulating drunken collegians, singing to drown out the cries of the distressed dancer.

In the Holland Tunnel the sing-song ceased and one of the gang said to the girl:

"This is something new in kid-naps, sister. We're all jolly good fellows, members of a theatrical troupe (to the general public). But don't get us wrong. We'd rub you out as quick as any Broadway mug if you failed for a minute to join the spirit of our little game. Your big boy has just read our demands in a note left with him."

"I'll—I'll pay you," chattered the little dancer. "Please—my contract. I must dance every night."

THE CAR sped along for thirty miles and turned into a narrow road. License plates were switched and another fifty miles sped by. They stopped at a railroad village and parked the car on a side street. They changed their toppers for peak caps and entered the railroad station.

"Oh, you're the troupe from the opy house," grinned the operator. "Thought there was two girls in the party."

"One of us is a female impersonator, haw! haw!" laughed the spokesman. The operator laughed too, and began stamping the tickets. "Train's not due for thirty minutes yet," he apologized.

"O.K. brother, we'll put on a little show while we're waiting." He strode over to Paula. "Smile, sister, SMILE," he hissed, and out loud. "Come on, Sally Rand, give the gentleman your best imitation of a fan dance."

Paula was ready to faint but entered into the game by dancing a

whirling tap number that had the operator's eyes popping. Some singing followed and a bottle was passed around.

"Now, another dance," ordered the master of ceremonies.

"Just a slow one," pleaded Paula, "I'm very tired."

"Oh, all right," yawned the fellow. She made a long slow stride straight to the operator and whispered "Listen!" Then she performed a painfully punctuated dance with more body undulations than footwork.

The bottle passed around again and the operator went to his key, took an order, sent one, and in a few minutes the train was in. They boarded it.

Sargo was a small city. A taxi was ready waiting for them and whisked them out into the country where they got out in front of a big house.

Every shadow exuded a police officer. Eight of them had pinioned the four "collegians" before the door opened, and two more seized the servant.

Paula promptly fainted. Two officers carried her to safety. "This house has been under suspicion for a long time," said an officer to Paula. "When that operator's message mentioned 'Sargo' we posted a squad at the house. Here's the car now which followed their taxi from the depot."

Oh, yes, Paula's dad had been a station agent and had taught her to tap dance the Morse code.

All children living on the south side and those in the 6, 7 and 8th grades would use the facilities of the present school building. The building will be of brick, one story construction. **FIRE WARNING
SENT FOR OUR
FOREST PRES.**

Fire is the greatest enemy of the forests, and because of this, William N. Erickson, president of the Cook County board of forest preserve com-

missioners appeals to visitors to the forest preserve district to refrain from throwing down lighted cigarettes, matches or pipe dottle.

He asks too, that picnickers put out fires before leaving. Wind may carry embers to dry grass plots.

Already this spring there have been more than 40 fires causing damage to several acres of wooded lands. People are reminded by President Erickson, the forest preserve district belongs to them, and they should do their utmost

to prevent forest fires.

If a visitor sees a fire, President Erickson asks that he phone Forest Preserve District headquarters, Forest 4470 or CO 1-8400, where a fire watch is maintained. Reverse the toll charges. Speed is the greatest factor in lessening the damage caused by fire.

Fallen leaves are dry and new green vegetation has not progressed far enough to prevent the spread of fire. The danger seasons are spring and fall.

By Charles L. Egenroau

WASHINGTON, D. C.—Two opposite political philosophies crossed in the newspaper columns here in the last few days.

The Republican high command is determined to halt the Trumanite socialistic trends in America by winning the 1950 Congressional elections.

At the same time President Truman went before the Congress with a message urging passage of another social step—compulsory health insurance.

Especially significant is the fact that Republican leaders, meeting in 3-day sessions here, set up a strong "strategy committee" which will concentrate on the legislative program on Capitol Hill.

Obviously, President Truman's determination to follow the path leading directly to state socialism even though his Democrat 81st congress is balking furiously against him gives the GOP strategy committee a quick start on the work it has to do.

The President's plunge toward a completely socialist state will undoubtedly automatically create the major issue in every Congressional district and every Senatorial race in 1950.

Every Congressional contest will necessarily be waged over the question: "Are you for or against Truman Tolitarianism?"

The birth of the O.P.E. Strategy Committee came at a time when both Democrats and Republicans on The

Hill were at the height of their fight to block the socialistic trend.

That the fight is succeeding is crystal-clear. Charges are being hurled almost daily now by administration mouthpieces that Republicans are solely responsible for Congressional inaction.

Truman would like to join in the tongue-lashing, but has been advised against it because the people who "fell for" the charges he hurled against the 79th Democrat and 80th Republican Congresses would find it hard to understand why he is always right and Congress always wrong—no matter which party holds the balance of power on The Hill.

So, the Truman hatchet-men are going about the country contending the Republicans are blocking the progress.

They do not explain the progress of what.

It can be explained only by this simple fact: Republicans and Democrats are blocking the progress of socialism.

KILL FLIES AND STOP DISEASES

When one insect can carry more than 20 human diseases, it's a pretty dangerous enemy, isn't it? Especially when those diseases include typhoid, cholera, dysentery, diarrhea, tuberculosis, and possibly infantile paralysis?

The common housefly carries all these dangerous diseases, and that's one big reason why the 1949 Illinois Fly-Control Campaign is combating the fly menace.

Good sanitation and neighborhood cooperation are more than half the battle. If everyone will clean out all decaying organic matter, that will eliminate fly-breeding places. Then when you spray the few flies which survive, you should have almost a fly-free summer.

But everyone must clean up and spray. Here are some suggestions for spraying:

Dispose of your garbage regularly twice a week. Burn it, bury it, or haul it to a garbage dump.

Clean out your garbage containers carefully once a week. Then spray

them inside and outside with DDT. Spray nearby areas also. Keep garbage cans covered.

If you have an outdoor toilet, make it fly-proof. Spray it once a month with DDT. The best form is 25 percent emulsifiable concentrate diluted to 5 percent strength.

Paint the screen doors and frames, window screens and frames, and porch ceilings once a month with DDT. This will contaminate their roosting places. Use the same form of DDT as for outdoor toilets.

Judgment Day

Lesson for May 15, 1949

FORTY DIFFERENT Christian denominations sponsor this column, although it goes without saying that not all of the millions of Christians in those denominations would agree point for point with everything that is said here.

Now if the reader could interview one leading Bible expert from each of these 40 denominations, and ask each one the same question:

"In your personal opinion, exactly what is the meaning of Mark 13?" you might not get 40 different answers, but you certainly would get more than one.

There is no chapter in the Bible that has been the subject of more arguments than this one, and no arguments have ever been more useless than these.

Leaving extreme views aside, let us try to discover some meanings which all 40 denominations would find in this chapter, some truths on which all reasonable Christians can agree.

A Certain Fact

IN JESUS' view one thing is certain: God's judgment on this world and on all persons in it. Christian churches have different ideas about what happens after death. We have different ideas about how the judgment is to be carried out, or where it will be held, or when. But that every man will have to give account of himself before God is something Christians believe.

Your true unbeliever is not the person who goes around saying there is no God. A more subtle and dangerous form of unbelief is in the person who takes the Christian creed upon his lips but lives as if the creed were a lie.

He repeats the Apostles' Creed: "From thence he shall come to judge the quick and the dead." If those words are sincerely spoken, the believer will honestly try to please God above all others. But the unbeliever, whatever his words may say, shows that he does not believe by the fact that he tries to please, first of all, either himself or his family or his neighbors, and not God above all.

An Uncertain Time

IT IS ONLY children who think that if something doesn't happen Now, it will never happen. Now and never are not the only times on God's clock. When will the judgment be? The disciples wanted to know, but Jesus did not tell them. He did not claim to know, himself, when it would be (Mark 13:32.) What he did say was, Watch! There is a sense in which God's judgments are going on all the time. The end of your world will come in your own lifetime, whoever you are; for there is not much difference whether the world folds up and leaves you or whether you fold up and leave the world.

Death is the end of the world for every one who dies. Further, whenever a person suffers by and because of his own wrong-doing, here in this life and on this earth, God is judging him by the eternal moral laws which are the very warp and filling of the fabric of life.

There is also a sense in which God judges societies and nations. We have recently seen how terrible a judgment Germany drew down on its head. The nation that takes the sword shall perish by the sword. The nation that sets out to enslave others by force will come under the same death-sentence that cut down Assyria and Rome and Japan and Germany. But not all God's judgments are on this earth. "God does not settle all his accounts in October." There is a final accounting, and no man, in this life or any other, can escape that solemn meeting with God.

The Only Judge

TWO THINGS are sure. One is that the only true judge of any man is God. The man himself is partial, his friends are partial, his enemies are prejudiced against him. Further, no one knows all the facts but God. Only God knows what a man's motives are; only God can trace to their final end all the consequences that flow from a man's act.

Bobzin-Swinford Post 1098

The following letter was received from the Organization Department of The American Legion Department of Illinois.

Mr. Marvin Weitendorf, Adj., Bobzin-Swinford Post No. 1098, The American Legion, Frankfort, Illinois.

Enclosed you will find the wings awarded for the Air Plane Round Up, and ask that you present them to your Commander and Membership chairman as well as one for yourself, and one extra to be awarded as you see fit.

Please accept these with the compliments of the Department of Illinois for having exceeded your last year's membership total on or before the Air Plane Round Up on April 24.

Sincerely yours,
Merle E. Schaad

Attest:
Lyle K. Snively

The Bobzin-Swinford Post 1098 of The American Legion is growing as we already have met our quota of members. Are you eligible for membership in The American Legion? If so, join now the greatest organization of Veterans who help Veterans who need help.

Last fall the Frankfort Cemetery Association donated one lot to the Bobzin-Swinford Post 1098 of The American Legion to use as the Post needed it. One Sunday afternoon last fall, four members of the Post plowed the lot with the tractor owned by Harry Miller. Helping him do the plowing were Orville Schinkowski, Kenneth and Donald Oetter. Last week the lot was worked once more and then grass was seeded and the flag post base was set in concrete. The members of the Post who helped with this job were as follows: William Batson, Delbert Seeman, Donald Carroll, Everett Nissen, Burlyn and Ray Eisenbrandt, Donald and Kenneth Oetter, and Fred and Marvin Weitendorf. Herbert Bixler and Burlyn Eisenbrandt donated their time and material in making the flag pole. The flag pole was painted last Friday morning by Kenneth Oetter and that evening it was erected by Donald Oetter, Delbert Seeman and Fred Weitendorf. It is hoped that the grass will be up in time for Memorial Day as the Post plans to dedicate the flag pole on that day.

The Bobzin-Swinford Post 1098 of The American Legion would like to take this time in thanking the Officers of the Frankfort Cemetery Association for their generosity in giving this lot to the Post.
